

## CATERING PRODUCTS

### GLASS WASH

- Specially formulated for enclosed glass washing machines.
- Leaves glasses sparkling clean and taint free.
- Highly Concentrated, Economical - use at 0.2-0.4%
- Soaks away unsightly stains from crockery and utensils.

**Glass Wash** is a highly efficient liquid blend of alkalis, water softeners, sequestrants, and detergents, designed to give excellent wetting and rinsing properties, over wide temperature ranges. Low foaming gives spot free, streak free finish.

#### **DIRECTIONS FOR USE**

For glass washing always refer to the machine manufacturers instructions.

Suggested Usage:- 2-4 ml per litre of water i.e. 0.2-0.4%

### RINSE AID

- Ensures sparkling glassware and crockery.
- Prevents haze even in hard water.
- An essential additive for all machine dish washing.
- Highly concentrated, Economical - use at 0.04-0.2%

**Rinse Aid** is a highly concentrated product, giving an excellent finish. Prevents streaking and spotting of glassware and china in automatic dishwashers.

#### **DIRECTIONS FOR USE**

Use in accordance with the machine manufacturers recommendations.

Suggested Usage:- 0.4-2 ml per litre of water i.e. 0.04-0.2%

### AUTOMATIC DISHWASHER DETERGENT

- Highly concentrated for maximum economy in use.
- Suitable for both hard and soft water.
- Advanced soil suspending formula prevents spotting.
- Corrosion inhibitors prevent metal tarnish.
- Suitable for automatic dispenser use.

**Automatic Dishwash Detergent (ADD)** is a powerful non-foaming detergent for machine dishwashing providing outstanding cleaning.

#### **DIRECTIONS FOR USE**

Use in accordance with machine manufacturers recommendations and degree of soiling.

Suggested Usage:- 3-4 ml per litre of water i.e. 0.3-0.4%

### AUTOMATIC DISHWASHING POWDER

Breaks down and lifts off stubborn dried on food residues. It also removes difficult stains like tea, coffee and lipstick, rinsing everything away to ensure a clean and bright finish.

#### **DIRECTIONS FOR USE**

Remove food scraps, fill dispenser with Dishwash Powder according to manufacturers instructions, or as a guide use 40g. Use 50g in hard water areas or for heavily soiled dishes.

Some items are unsuitable for machine dishwashing including old or hand painted china, lead crystal, decorated glassware, wooden or bone handled items, coloured or anodized aluminium.

Do not let silver touch stainless steel.

## **BEER LINE CLEANER**

- Cleans and sweetens beer pumps and pipelines by simple soaking.
- Suitable for both pressurised dispense equipment and traditional hand pumps.
- Effective steriliser, ensures beer keeps in top condition.
- Completely odourless and taint free.

**Beer Line Cleaner** is a concentrated product specially formulated for the cleaning and sanitizing of all types of beer dispensing equipment, cellar tanks and other beer handling equipment.

### **DIRECTIONS FOR USE**

Flush through system with cold water. Make up a solution of 1 part product in 40 parts water at temperatures up to 60 C i.e. 2.5% solution. Pump/pour into installation until fully charged. Allow 15 mins contact time. Flush with clean water until solution is completely purged. For connections and taps use the same dilution rinsing thoroughly. Systems should be cleaned at least once a week.

### **SAFETY PRECAUTIONS**

Avoid contact with eyes and skin. If in contact with skin wash off with copious amounts of water. Contact with eyes should be flushed out by irrigation with clean water. For detailed health and safety information request hazard data sheets.

### **PACKAGING**

Catering products are normally supplied in 4 x 5 and 25 litre drums.

Automatic Dishwasher Detergent powder supplied in 10 and 25kg bags/tubs.
