

CHANNEL BLOCKS

PERFUMED RINGS - DEODORANT BLOCKS

DESCRIPTION

PERFUMED RINGS are manufactured from 100% Paradichlorobenzene crystals and contain a pleasant and distinctive perfume. They are a solid round block with a centre hole, enabling them to be suspended on wires over the edge of the toilet bowl. Equally effective when used in urinals and channels in gents toilets or as an air freshener to mask unpleasant odours. The rings are white. Each ring is individually wrapped in red cellophane and then packed in plain white cartons.

BENEFITS AND FEATURES

- § Will mask unpleasant odours
- § Individually wrapped in red cellophane
- § Contains a pleasant & distinctive perfume
- § Perfume lasts the life of the block
- § Centre hole to enable hanging in toilet bowl
- § Dual purpose deodoriser - toilet bowl or urinal channel
- § Wire hooks available for suspending in bowls, etc.

WHERE TO USE

For use in toilets, washrooms & places of persistent & unpleasant odour.

HOW TO USE

Unwrap the block & suspend with a wire hook over the rim of the toilet bowl, or place it in the gents urinal or channel to help overcome unpleasant odours. The block can be partially unwrapped & placed, still in its cellophane wrapper, on all types of hard surfaces to give off a perfume which lasts the life of the block.

COMPOSITION

Contains a blend of paradichlorobenzene crystals & perfume. (No fillers used).
