

## PA10

### CONCENTRATED ALKALI POWDER CLEANER/DEGREASER

FORD MOTOR CO.LTD TOX. NO 110658

NATO STOCK NO: H107930-99-817-7735

\* GOOD WETTING ACTION

\* FREE RINSING

\* SAFE ON ALL METALS

\* CAUSTIC FREE

A medium duty alkaline but caustic free product containing special additives which quickly remove oil and grease deposits.

#### APPLICATIONS:

PA10 finds many applications in light industry and food industries for cleaning and degreasing both ferrous and non ferrous metals. PA10 may be used for electrolytic cleaning, steam and pressure cleaning machines, floor and wall cleaning, engine and vehicle parts degreasing.

#### METHOD OF USE:

**Steam and Pressure Machine Cleaning:**- Use 25 grams per litre of water (approx. 2.5%) in the detergent tank.

**Soak Tank Cleaning:**- Use 25 to 65 grams per litre of water (2.5 to 6.5%) at between 75 and 95°C.

**Electrolytic Cleaning:**- Use 100 grams (10%) per litre of water at 90°C.

**General purpose floor and wall cleaning and for removing fats, greases and oils in food industries:**- Use 20 to 100 grams per litre of water (2 to 10%) at 90°C.

PA10 should be made up in cold water. Avoid contact with magnesium or any of its alloys. After all applications rinse with plenty of water. Use in a mild steel tank.

#### SAFETY PRECAUTIONS

Handle alkali products with care. Wear full protective clothing and wash off any splashes with plenty of water. For detailed health and safety information request a hazard data sheet.

**PACKAGING** 25kg sacks.

**N.B:** For heavier duty cleaning, where more stubborn soils are encountered, ask for details on our PA11 powder cleaner.
