

PA13

CONCENTRATED ALKALINE POWDER SPRAY CLEANER AND DEGREASER WITH RUST INHIBITION

- * LOW FOAM
- * FREE RINSING
- * CAUSTIC FREE
- * GOOD WETTING ACTION
- * CORROSION INHIBITION

PA13 is a specially formulated low foaming, well wetted powder for use in industrial spray washing machines where some corrosion and rust inhibition is required. PA13 is suitable for both ferrous and non ferrous metals.

METHOD OF USE

Use 5 to 7 grams per litre of water (0.5 to 0.7%) at ambient temperatures or heated up to 80°C. Make solutions up in cold water. Where corrosion protection is required do not rinse. Use in a mild steel tank.

SAFETY PRECAUTIONS

Handle strong alkalis with care. Wear full protective clothing and wash off any splashes with plenty of water. For detailed health and safety information request a hazard data sheet.
