

PGP2000

HEAVY OIL AND GREASE REMOVER

FORD TOX. NO.: 153594

GP2000 is a heavy duty, biodegradable, hard surface cleaner which has been formulated for the cleaning of heavily contaminated floor areas in press shops and machine shops. Also suitable for the removal of oil, grease and grime from a multitude of hard surfaces including plant equipment and machinery.

INSTRUCTIONS FOR USE

PGP2000 is normally used in a floor scrubbing machines at a concentration of between 1-5%, although application by mop and bucket is equally effective. The level of **PGP2000** used may be adjusted to suit a particular application, and for plant which is coated with stubborn greases (such as molybdenum and graphite based coatings) the material may be applied neat, with brushing if required, and be rinsed off with a water jet.

PGP2000 is supplied as a highly concentrated, viscous slightly hazy liquid in 25 litres, 205 litres or IBC containers
