

## SOLVENTS

**Safe to use on all metals for degreasing and cleaning**

PE 101 Solvent Cleaner	A medium evaporating solvent cleaner	Use as supplied for the safe cleaning of heavy contaminations from large equipment such as generators and machinery. Apply by brush or spray. Allow to flash dry.
PE 103 Solvent Cleaner	A slower drying solvent cleaner	Used as supplied. Wipe or brush-on solvent for the cleaning of metal prior to painting. A very good, low toxicity, high flashpoint degreaser for general cleaning duties. As with PE 101 can be used on electric motors and machinery. Recommended for use in mechanically agitated tank or ultrasonic cleaning systems. Flashpoint 63°C.
PE 104 Solvent Cleaner	Odourless Solvent degreaser,	Slow drying general purpose cleaner and safe on most paints and plastics. Flash Point 70°C
PE 110 Solvent Cleaner	A medium evaporating chlorinated solvent	Use as supplied for the safe cleaning of heavy contaminations from large equipment such as generators and machinery. Apply by brush or spray. Allow to flash dry.
PDS 100 Solvent	A non-flash volatile cleaning/stripping solvent.	Used as a degreaser for components prior to painting or for topping up/reviving old paint stripping tanks. For degreasing add a 5cm water seal to surface of solvent, remove component from solvent and allow to dry. The 2-tank system is again employed. One tank is sufficient for certain degreasing jobs. Non-flammable. Toxicity rating 200ppm.

### PRECAUTIONS

Use in well ventilated areas. Avoid prolonged contact with the skin.

Wear suitable protective clothing.

PACKAGING: 4 x 5 litre, 25 litre and 205 litre containers.
