

SaniKlene™

COMBINED SURFACE CLEANER DEODORANT DISINFECTANT & DETERGENT

SaniKlene combines deodorant, disinfection and detergent properties in a perfumed water based solution for surface cleaning. Perfumes include Floral, Tropical or Citrus.

Applications

SaniKlene suitable for use in storage and working areas, cargo containers, office buildings, factory areas, transport vehicles, working surfaces, corridors, lavatories, changing rooms, swimming pool and slipper bath areas, civic buildings, mortuaries, kennels, catteries, waste disposal units and rubbish chutes etc. These are just some of the many locations in which the cleansing, deodorant and bactericidal actions of **SaniKlene** can make a valuable contribution to hygiene.

Cleaning is achieved by the incorporation of concentrated detergents that suspend the dirt particles and emulsified oil. Maximum dilution 1:100.

Odour Control is provided by the incorporation of a deodorant compound that gives instant and dramatic improvement in odour conditions by neutralising offensive smells. Three types of perfumes are available. All are pleasant, persistent, lingering odours.

Disinfection is achieved by the incorporation of a bactericide.

The agent has been shown to be effective against the following:- *Strep.Faecalis, Staph.Aureus, E.Coli, Kleb.Aerogenes, Prot.Vulgaris, Candida Albicans, Pseud.Aeruginosa, Lysteria Monocyt., Clost.Welchii, Strep.Mutans.*

METHOD OF USE: **SaniKlene** can be safely used on most surfaces. If in doubt the user should first test a small area. The product is generally used at concentrations down to 1 to 2% for cleaning. Apply by spray, mop, brush, cloth or sponge. For stubborn soils agitation may be required. Allow a few minutes contact time before rinsing with water. (For catering applications ask us about **Masterclean**, the non-perfumed option)

Bactericidal Activity:- at dilutions of 1:50 - 1:100(1-2%) **SaniKlene** will completely kill most bacteria and yeasts within a few minutes.

Bacteriostatic Activity:- at dilutions of 1:500 - 1:1000 (0.1 - 0.2%) **SaniKlene** will prevent the growth of most micro-organisms.

Fungicidal Activity:- to kill resistant moulds/fungi use **SaniKlene** at a dilution of 1:20(5%)

SAFETY PRECAUTIONS: -

The product is non hazardous.

However avoid inhalation of mists or sprays. Avoid contact with skin and eyes. Wear appropriate protective clothing. Skin contact should be washed off with water. In the event of eye contact irrigate eyes with plenty of clean water. For detailed health and safety information request hazard data sheets.
