

## **DEWATERING AND CORROSION PREVENTATIVE FLUIDS**

### **PDW/S**

Heavy-duty dewatering/protective removes water from metal surfaces and leaves a non-tacky deposit for clean handling. The easily removable deposit gives up to 6 months internal protection and up to 1 months protection from rust and corrosion.

### **PDW/A**

Similar to PDW/S but with less heavy deposit to give up to 3 months internal protection for parts in store or between machining operations, etc.

### **PDW/B**

A non-residual dewatering fluid to disperse moisture and droplets of water from decorative plated metal surfaces. A few days of inhibition on steel is obtained between machining operations.

**Uses include :** Manufactured parts in transit; temporary protection between operations; moulds; spares and parts in storage; removal of droplets from decorative surfaces.

**PDW/S and PDW/A** are used as supplied by the immersion of parts in solution. Larger objects may be sprayed.

**PDW/B** is applied by immersion only.

Solutions are to be contained in a galvanised steel tank, the base of which is angled at about 35 degrees. At its lowest point a tap is inserted from which water is drawn off at regular intervals to maintain the efficiency of the product.

Supplied in 5, 25, and 205 litre containers.

**SPECIALIST PAINTS FOR INDUSTRY**

## **PENETRATING/DEWATERING/LUBRICANTS**

### **PC90**

Will free seized parts, repel moisture and leave a protective oil. Insulation resistance is improved on electronic equipment because of the products high dielectric strength. PC90 is safe on rubber, plastic and paint.

**PC90** is supplied in "Ozone Friendly" aerosols.

Parts are sprayed from 8" to 12" to ensure an even coverage.

### **PENETRATING PLUS**

With extra penetrating power, a deposit is left to protect and lubricate surfaces of metal parts and rusted fittings.

**Uses include:** Ignition systems, tools, chains, hinges, motors and switchgear. (Safe on rubber, plastic and good paints.

**PENETRATING PLUS** is supplied in 5, 25 and 205 litre containers.
