

GRAPHITED PENETRATION OIL

- * LUBRICATES * PENETRATES * REMOVES RUST
- * CLEANS * OZONE FRIENDLY

GPO is a specially formulated lubricant which is ideal for use in the workshop environment.

Releases rusted, seized and corroded nuts, bolts, hinges, locks, linkages, tools, fittings, etc.

GPO also cleans and removes rust.

GPO contains graphite for residual lubrication enabling removal after initial freeing.

DIRECTIONS FOR USE:

Shake can well before use. Spray onto part, from a distance of 6-9". Allow a few minutes for the product to penetrate before disassembly.

HEALTH AND SAFETY

Not to be taken internally, if ingested wash out mouth with water, give water to drink and seek medical aid immediately.

Keep out of reach of children .

Keep away from direct heat.

Rinse splashed to the eyes with water for several minutes and seek medical aid if irritation persists.

Splashes to the skin should be washed with soap and water and if necessary apply soothing cream.

DO NOT breathe mist. If inhaled, remove patient to fresh air and seek medical aid.

For prolonged contact wear PVC gloves.
