

MULTI-PURPOSE HARD SURFACE CLEANER/DEGREASER CONCENTRATE

FORD MOTOR CO. LTD TOX NO: 107204

APPLICATION

PGP837 is a specially formulated, fast acting, maintenance cleaner. This product is water dilutable and will effectively and safely remove stubborn soil from hard surfaces; walls, floors, paintwork, pits, underframes and machinery. It is particularly effective when used in steam cleaners and power washing machines or mechanically agitated tanks. PGP837 can be used in a multitude of applications and industries to remove grease, dirt, oil and carbon. As a general purpose cleaner PGP837 reduces the need to hold inventories of many products. PGP837 is biodegradable.

INSTRUCTIONS FOR USE

For use with a steam cleaner or pressure washer use 1 part of concentrate with 40 parts of water (2-3% solution.) in the detergent tank. Stronger or weaker solutions may be necessary depending on the amount or type of soil to be removed. For use as a general floor cleaner in machines use 1 part concentrate with 40 parts water (2-3% solution. hot or cold). For heavily soiled floors use 1 part to 10 parts water (10% solution). For hand washing of paint or plastic surfaces use 1 part concentrate with 16 parts water (6% solution.). For manual operations apply by spray, mop, sponge, brush or cloth.

PRECAUTIONS

Although PGP837 is only a mild irritant, contact with skin and eyes should be rinsed off with water. Wear suitable protective clothing (PVC gloves, boots etc) when handling the product. For detailed health and safety please request a hazard data sheet.
