

Description

Toolclean is an equipment cleaner suitable the removal of uncured Epoxy, Polyester and Polyurethane resins.

It has a low evaporation rate, mild odour and low toxicity, making it much more user friendly than other commonly used solvents.

Toolclean is also largely biodegradable photochemically non-reactive, and therefore more acceptable from an environmental point of view.

for Store in cool conditions in secure containers.

Typical Uses

Equipment Cleaning

Uncured resin removal

Paint and graffiti removal

Advantages

- * Low Hazard
- * Low evaporation rate
- * Excellent solvency powers
- * 80% Biodegradable

Typical Properties

Appearance:	clear, colourless liquid
Odour:	mild, sweet
Flash point:	31C
Vapour pressure:	10mm Hg @ 20C
s.g.:	0.921 @ 20C
Solubility in water:	Soluble

Packaging

Toolclean is supplied in 5 litre packs.

Storage and Shelf Life

Toolclean has a minimum of 12 months shelf life when stored in original, unopened containers in accordance with the manufacturers conditions.

Health and Safety

Do not breath vapour/spray.

Avoid contact with skin and eyes.

Provide adequate ventilation.

Refer to Material Safety Data Sheet for further information.
