

WINDSCREEN WASHES

PWW - PERFORMANCE WINDSCREEN WASH/DE ICER

APPLICATION:

PWW is a highly concentrated, fast and effective Windscreen Wash for vehicles. Removes traffic film and may also be used as a de-icer. Contains corrosion inhibitors.

METHOD OF USE:

As a general Windscreen Wash dilute 1 part **PWW** with 40 to 50 parts water (approx. 2%) in the wash bottle.

For use as a De-icer at temperatures of -40°C, use a solution made up of 3 parts **PWW** with 1 part water.

PWW ALL SEASONS - ALL SEASONS SCREEN CLEAN

APPLICATION:

ALL SEASONS PWW is a concentrated effective windscreen wash for vehicles, ideal for all year round use both summer and winter. Contains corrosion inhibitors. Clears traffic film from windows effectively, causing no harm to car paintwork or rubber.

METHOD OF USE:

In summer use 1part **PWW All Seasons** to 10 parts water.

In winter use 1part **PWW All Seasons** to 1 part water.

SAFETY PRECAUTIONS:

PWW is highly flammable and **PWW All Seasons** is flammable as a concentrate. Store away from naked flames or sources of heat. Avoid contact with skin and eyes. Wash off any splashes to skin with water.

Eyes should be irrigated with clean water. Wear protective clothing when handling the concentrates.

PACKAGING: 4 x 5, 25 and 205 litre drums

C-THRU - READY TO USE WINDSCREEN WASH

APPLICATION:

C-THRU is a ready to use, all weather, vehicle windscreen wash.

Gives protection down to -20°C.

METHOD OF USE:

No dilution is required. Fill C-THRU straight into the windscreen wash bottle.

SAFETY PRECAUTIONS:

Avoid contact with skin or eyes. Wash splashes from skin with water. Eyes should be irrigated with clean water. Wear appropriate protective clothing.

PACKAGING: 25 litre drums.
