

GRAFFITI GONE

LONDON UNDERGROUND PART NO: 17418/147

- ü NON-FLAMMABLE
- ü BIODEGRADABLE
- ü HIGHLY ACTIVE
- ü PLEASANT SMELLING
- ü ENVIRONMENTALLY AND USER FRIENDLY

Graffiti Gone is a liquid general purpose graffiti remover specially designed for use in sensitive areas. It is comprised of a mixture of highly active solvents together with non-ionic surfactants. The product is non-flammable and contains no chlorinated solvents making it very user friendly.

Graffiti Gone is suitable for use in both interior and exterior locations.

APPLICATIONS:

Graffiti Gone can be used for the fast and efficient removal of ink marks, paint, crayons and other stains from hard, non-porous surfaces such as metal and masonry. With controlled use the product is also safe to use on painted surfaces as long as the paint is of "good quality". Avoid use on emulsion paints, PVC, or freshly applied paints.

METHOD OF USE:

It is advisable to test **Graffiti Gone** on a small unnoticeable part of the surface to be cleaned before commencing the operation. This is especially important when removing graffiti from painted surfaces and plastics.

Graffiti Gone may be applied by cloth, brush, paper towel or spray. Leave in contact with the surface for up to 5 mins if necessary. Deposits may then be wiped away with a clean soft damp cloth or washed away with water. Work from edges toward the centre, turning the cotton swab frequently to prevent the spread or smearing of the graffiti being removed. Stubborn graffiti may require agitation with a brush, non abrasive pad or a further application of the product. Rinse surfaces with water or dilute Performance PGP 500 detergent after use.

SAFETY PRECAUTIONS:

Use in a well ventilated area. Avoid contact with skin or eyes. Wear chemical resistant goggles or visor. Wear rubber (not pvc) gloves and overalls. Splashes to skin should be washed off with plenty of water. In the event of eye contact, irrigate with clean water. For detailed health and safety information request a hazard data sheet.

PACKAGING: 6 x 750 ml trigger sprays & 4 x 5 lt drums.
